

Construction beams made of recycled plastic

- Our construction recycle plastic beams are a great alternative to wood beam if your installations are in located in humid area or directly in contact with ground. Why? Because there's no chance your beams will rot. And compare to wood, the plastic won't crack or broke.

Dimensions	Real dimensions
2" x 2" x 12'	1 7/16" x 1 7/16" x 144"
2" x 4" x 12'	1 7/16" x 3 3/8" x 144"
2" x 6" x 12'	1 7/16" x 5 3/8" x 144"
2" x 8" x 12'	1 7/16" x 7 1/2" x 144"
2" x 10" x 12'	1 7/16" x 10 5/8" x 144"
4" x 4" x 12'	3 1/2" x 3 1/2" x 144"
4" x 6" x 12'	3 1/2" x 5 3/8" x 144"
6" x 6" x 10'	5 5/16" x 5 5/16" x 120"

Features and Benefits

- Made of 100% recycled plastic
- Parfait pour remplacer un madrier dans le bas d'une structure en cas de dégât d'eau
- Won't rot or mold
- Ideal to make garden or landscaping outline
- Same working tools as wood
- Long life and cost-effective
- Can be used for new construction or retrofit
- Can be used to make a dock
- Made in Québec
- Fabriqué au Canada
